

International Intermodal Services

Global coverage, single-provider reliability

Niyac Corporation Group and Hoyer Global Transport BV have integrated their respective domestic and international networks in a manner that allows Niyac to provide safe, reliable, door-to-door transport of containerized bulk commodities to markets throughout the world.

HOYER GLOBALTRANSPORT

Hoyer operates a network comprised of worldwide service locations through which Niyac provides a full range of intermodal services. Niyac even provides service between multiple 3rd-country locations.

Tank Container Lease

To correspond with various clients needs, Niyac has lease regular size and custom made tank containers.

- Versatile tank container
※The storage stand allows one's company to discharge and store containers, empty or full, pretty much anywhere that have space. No need for a container stacker to unload the container and no need for the chassis.

- Electric heating custom made tank container

- Big capacity swap-body tank container (29 – 36KL)

- Dedicated to foodstuff tank container
