

Depot / Tank Cleaning

Niyac is proud to operate the country's most advanced tank container services depots. The depots provide a comprehensive range of tank container services. (Cleaning, Storage, Heating, and Maintenance.) This, in combination with Niyac's many other services, allows the Group to provide beginning-to-end, integrated logistics solutions.

✓ Provide a comprehensive range of tank container services

Niyac own and operate two purpose-built depots, one in Kanagawa, Yokohama City and the other in Kudamatsu City, Yamaguchi Prefecture, at which we provide a full range of tank management services starting with cleaning, storage, heating, and maintenance.

✓ Trans Shipment of Dangerous Goods

Niyac provides dangerous goods trans shipment service i.e., from tank container to tank truck/lorry, and the reverse, i.e. load (liquids) in to IBC containers.
