## Organization

## History

- 1948.03 • Founded as Kokutetsu Sekiyu Niatsukai K.K. in Chuo-ku Tokyo.
- 1948.06 • Renamed as "Sekiyu Niyaku K.K."
- 1949.03 • Deployed first tank truck (3,500L). Commenced petroleum transport operations.
- 1949.04 • Commenced operations at the company's first oil depot.
- 1958.12 • Niyac Labor Union established.
- 1959.05 • Founded Kanto Kosan K.K.(currently Niyac Trading Inc.).
- 1960.11 • Deployed first stainless steel tank trucks. Commenced chemical transport operations.
- 1961.04 • Deployed first LPG tank-truck.
- 1962.02 • Founded Sanyo Drum K.K.(currently Niyac Drum Container Service Inc.).
- 1962.07 • Founded Hanshin Unyu K.K.(merged into Niyac Corporation in 1999).
- 1963.11 • Founded Heiwa Drum Kogyo K.K.(later became Heiwa Kogyo K.K., then merged into Niyac Corporation in 2016).
- 1963.12 • Founded Yowa Unyu K.K.(merged into Niyac Corporation in 2008).
- 1965.04 • Founded Yoko Unyu K.K.(currently Yoko Co. Ltd.)
- 1967.10 • Deployed 1,001st tank truck.
- 1967.11 • Became a member of the National Tank Truck Carriers (NTTC) association.
- 1969.10 • Acquired Sankyo Unyu K.K.(later became Chugoku Niyac K.K., then merged into Niyac Corporation in 2006).
- 1970.04 • Founded Nihon Chemical Yuso K.K.(merged into Niyac Corporation in 2008).
- 1973.11 • Deployed 2,001st tank truck.
- 1974.09 • Founded West-Japan Niyac Corporation (later became Kyushu Niyac K.K., then merged into Niyac Corporation in 2011).
- 1977.07 • First commemoration tour to Hawaii for drivers having completed 15 years of incident-free driving.
- 1978.04 • Founded Sekiyu Bosai Co. Ltd.
- 1985.07 • Founded Nicom Corporation (currently Niyac System Support Co. Ltd.).
- 1991.07 • Renamed as "Niyac Corporation".
- 1991.10 • Commenced NVOCC operations.
- 1992.04 • Commenced high pressure gas transport operations.
- 1996.12 • Relocated head office to Shiba-Daimon Minato-ku Tokyo.
- 1998.02 • Commenced LNG transport operations.
- 2000.09 • Acquired Aichiken Sekiyu Unyu K.K.(later became Aiseki K.K., then merged into Niyac Corporation in 2016).
- 2002.07 • Launched BUSS (Bulk Haul Management Support System).
- 2003.07 • Acquired Kowa Transportation Co.Ltd.
- 2004.06 • Founded Yugen Kaisha Hokuriku Sekiyu Butsuruyu.
- 2009.02 • Founded Shanghai Niyac Corporation Co. Ltd. (merged into Shanghai Aqrum Niyac Logistics Co. Ltd. in 2020).
- 2009.05 • Launched Operation Center in Koriyama-City, Fukushima.
- 2009.09 • Acquired MCI Logistics(West),Inc.(currently GasChemical Logistics West Inc.).
- 2010.12 • Acquired high pressure gas logistics business from Sanin Sanso K.K.
- 2011.11 • Relocated head office to Fuyuki Koto-ku Tokyo.
- 2012.04 • Acquired petroleum product logistics business from Taiheiyu Sekiyu Yuso K.K. and Souya Kyoseki Yuso K.K.
- 2012.06 • Acquired high pressure gas logistics business from Teikoku Unyu K.K.
- 2012.06 • Acquired Daikyuu Co. Ltd. Commenced foodstuffs transport operations. (merged into Niyac Corporation in 2018).
- 2013.03 • Acquired Toho Unso K.K.(merged into Niyac Corporation in 2015).
- 2013.04 • Launched Yokohama Container Depot, as the one of the largest tank cleaning facility in Japan.
- 2013.06 • Acquired Ikko Konpo Yuso K.K.(merged into Niyac Corporation in 2016).
- 2015.07 • Launched "NCTS" as a training program of cryogenic gas logistics services.
- 2016.01 • Launched Cryogenic Gas Tank Maintenance Facilities.
- 2019.04 • Acquired Hotta Unso Group. (merged into Niyac Corporation in 2023).
- 2019.04 • Acquired high pressure gas logistics business from Seibu Sanso K.K.
- 2020.04 • Acquired Aqrum Chemical Logistics Co. Ltd. (currently Shanghai Aqrum Niyac Logistics Co. Ltd.).
- 2021.07 • Commenced operations at Niyac Gas Engineering Service Co. Ltd.
- 2023.04 • Acquired chemical logistics business operating in Kashima and Chiba area from Kureha Unyu Co. Ltd. and Kureha Unyu Truck Co. Ltd.

Founder: Heijuro Horie

Our first corporate office (in Tokyo, 1948)

Our first tank truck (3.5kl, 1949)

## Nationwide Network

Niyac operates a dense network of strategically located, nation-wide service locations. Without any "white spaces" of limited or non-coverage, this network allows the company to meet the logistics needs of its customers anywhere and everywhere.

- ★ Head Office
- OC / Regional Offices
- Affiliates / Local Offices
- Truck Terminals / Product Depots

## Service Domains

Niyac Corporation and its group companies, working together as a tightly integrated service entity, provide highly specialized bulk logistics services in the domains of petroleum products, chemicals, high pressure gases, foodstuffs, and door-to-door bulk container transport throughout the world. Our service line-up is listed below, however, with a multi-dimensional, flexible approach to service that extends well beyond mere point-to-point, Niyac is always pushing the boundaries of service to find new ways to add value for our customers.

### ✔ Logistics

Niyac's customers have a wide range of logistics needs and to answer them, Niyac operates a large and kinds fleet of bulk lorries, trucks, and ISO containers, and a wide network of terminals and service locations through which it provides domestic and international services via road, rail and ocean transport.

### ✔ Customer-Site Services

Niyac provides various on-site services for its customers including warehouse and inventory management, shipping and receiving, yard management, etc.

### ✔ Management of Warehouses, Outside Storage Tanks

To answer its customers' needs for storage solutions, Niyac owns and operates warehouses (includes temperature controlled) for hazardous materials, conventional goods, and outside storage tank complexes.

### ✔ Cleaning and Maintenance Services for Containers/Drum Recycling and Sales

Niyac provides cleaning, storage, maintenance, pre-use warming, and positioning/time adjustment services for its customers' ISO containers as well similar services for customers' depots and on-site storage facilities. Also, We collect used oil and chemical drums and completely recondition them (i.e. cleaning, repairing, and painting) for sale and re-use.

### ✔ Cryogenic Gas Engineering (Cryogenic Gas Vehicles Maintenance Facilities)

At our "Cryogenic Gas Vehicles Maintenance Facilities", Niyac provides the Safety Inspections, Periodical Self Inspections, and Container Reinspections that are required by law, as well inspection and maintenance for all the equipment we regularly use for the transportation of cryogenic gases.

### ✔ Procurement Services for JR Companies

Niyac coordinates various petroleum products procurement on behalf of JR group companies.

### ✔ Disaster Prevention

Niyac supports disaster prevention activities on-site at petroleum complexes as well as area-wide activities. Further, the company sells a range of disaster prevention merchandise such as a fire extinguishers and fire hoses.

### ✔ Information Technology; Services, Development, Management/Outsourced services

Working from self-developed and "off-the-shelf" software components, Niyac develops highly effective process control applications which it provides to its customers. In addition, Niyac operates a logistics control system and platform (developed jointly with IBM), called "BUSS", through which it provides various services for its customers including inventory control, load, dispatch and delivery planning, credit control, performance measurement, and so on thereby giving its customers cost-variabed and visible 3PL basis logistics services.

### ✔ Sales of Tank Trailers, containers, related Equipment, Petroleum products, and Insurance

Niyac sells tank trucks and trailers, ISO and various other containers, and related capital equipment. We also sell petroleum products alike for use in factories, automobiles, vessels, and general consumers as well as a full line of insurance policies including automobile, life, damage liability, etc.

# The Leading Provider of Logistics Services for Petroleum Product

Niyac, as the nation's largest operator of tank trucks for petroleum products, plays a central role in supporting the country's energy transportation infrastructure for industry and the citizenry at large. In addition, Niyac has been entrusted with the operation of onsite services and yard management at oil storage tank complexes or depots.

For more information, please contact the below:  
 Yuki kimura / Sales Group No.3(Energy)  
 TEL: 81-3-5809-8758  
 e-mail: y\_kimura@niyac.co.jp

# Chemicals Logistics

Niyac provides a full range of logistics services for chemicals and hazardous materials, including transportation, storage, and even administration of tank storage sites (which of course requires a very high degree of handling technology and attention to all aspects of safety).

For more information, please contact the below:  
 Yusuke Yamane / Sales Group No.4(Industry)  
 TEL : 81-3-5809-8795  
 e-mail : y\_yamane@niyac.co.jp

# The Largest High Pressure Gases Logistics Provider

Niyac provides logistics services for various high pressure gases such as LNG (Niyac is the country's leader), carbon dioxide, industrial gases, and so on. In addition the company provides 3rd party storage and handling of high pressure gases including up to the full management of customer-owned storage depots. Niyac's team of cryogenic logistics specialists is the nation's largest.

Here at Niyac Group, we are closely following society's transition to a diversity of non-fossil fuel energy sources and, in particular, are working hard on the services and infrastructure needed to handle liquid hydrogen.

## ✔ NCTS (Niyac Cryogenic Technical School)

NCTS is a technical school that specializes in developing advanced technology and teaching hands-on skills pertaining to cryogenic gas logistics services. NCTS instructors, deployed throughout the country, train students using a comprehensive curriculum which they deliver via classroom training as well as field-based, practical training. The curriculum of course covers all aspects of the logistics process including loading, unloading, emergency response procedures, the kinds of trucks and equipment used to transport and store the gases, the applicable laws and safety regulations, and so on. We believe that NIYAC Corporation Group, via the ground-breaking work NCTS is doing, is helping to raise quality standards within the country's cryogenic logistics services sector.

In what is probably a world-wide industry first, Niyac has constructed "cut-away" model of an LNG vehicle that students can "peer inside" to gain a firsthand understanding of gas flow and handling. That is, by looking beyond the equipment's exterior, and even using their hands to check interior textures, they can gain new perspectives and deeper knowledge.

## ✔ Cryogenic Gas Engineering (Cryogenic Gas Vehicles Maintenance Facilities)

"Cryogenic Gas Vehicles Maintenance Facilities" are located in 5 places throughout the country and are serviced by "Niyac Gas Engineering Service Co. Ltd", which is authorized as "Designated Container Conformity Inspection Body" by the Ministry of Economy, Trade and Industry. Niyac carries out periodical Self Inspections, Container Reinspections and Safety Inspections that are required by law, as well repairs and maintenance of cryogenic gas vehicles.

For more information, please contact the below:  
 Yusuke Yamane / Sales Group No.4(Industry)  
 TEL:81-3-5809-8759  
 e-mail: y\_yamane@niyac.co.jp

## Foodstuffs Logistics

Niyac provides a full range of services for liquid, powdered etc. foodstuffs including the management of depots thereby allowing us the ability to adjust delivery service (e.g., redirecting loads, adjusting delivery times, etc.) to meet the needs of our customers. And we take the highest care to the "Food Defence" management.

## Food Defence Management

Since the products the division transports are destined for human consumption, we take the utmost care to ensure the quality and integrity of the logistics process down to the smallest of details such as even the type of overalls our drivers wear. To this end, our drivers all carry with them, without exception, a manual that spells out in detail proper handling and quality maintenance procedures.

For more information, please contact the below:  
 Yusuke Yamane / Sales Group No.4(Industry)  
 TEL : 81-3-5809-8759  
 e-mail : y\_yamane@niyac.co.jp

# International Intermodal Services

## Global coverage, single-provider reliability

Niyac Corporation Group and Hoyer Global Transport BV have integrated their respective domestic and international networks in a manner that allows Niyac to provide safe, reliable, door-to-door transport of containerized bulk commodities to markets throughout the world.

**HOYER**  
GLOBALTRANSPORT

Hoyer operates a network comprised of worldwide service locations through which Niyac provides a full range of intermodal services. Niyac even provides service between multiple 3rd-country locations.

## Tank Container Lease

To correspond with various clients needs, Niyac has lease regular size and custom made tank containers.

- Versatile tank container  
※The storage stand allows one's company to discharge and store containers, empty or full, pretty much anywhere that have space. No need for a container stacker to unload the container and no need for the chassis.
- Electric heating custom made tank container
- Big capacity swap-body tank container (29 – 36KL)
- Dedicated to foodstuff tank container

For more information, please contact the below:  
 Satoshi Sakuraba / Sales Group No.4(Industry)  
 TEL: 81-3-5809-8795  
 e-mail: satoshi\_sakuraba@niyac.co.jp

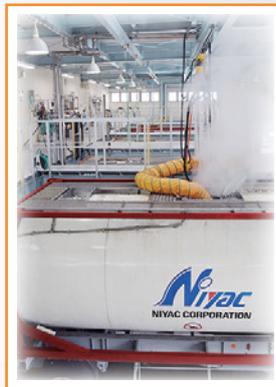

## Depot / Tank Cleaning

Niyac is proud to operate the country's most advanced tank container services depots. The depots provide a comprehensive range of tank container services. (Cleaning, Storage, Heating, and Maintenance.) This, in combination with Niyac's many other services, allows the Group to provide beginning-to-end, integrated logistics solutions.

### ✔ Provide a comprehensive range of tank container services

Niyac own and operate two purpose-built depots, one in Kanagawa, Yokohama City and the other in Kudamatsu City, Yamaguchi Prefecture, at which we provide a full range of tank management services starting with cleaning, storage, heating, and maintenance.

### ✔ Trans Shipment of Dangerous Goods

Niyac provides dangerous goods trans shipment service i.e., from tank container to tank truck/lorry, and the reverse, i.e. load (liquids) in to IBC containers.

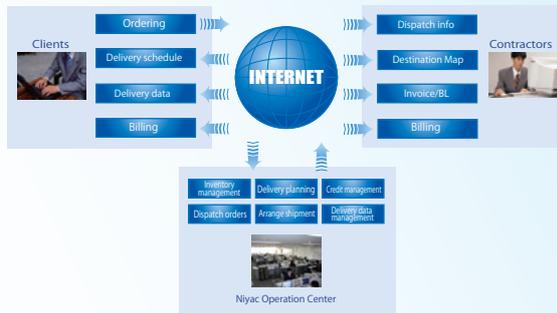

For more information, please contact the below:  
 Satoshi Sakuraba / Sales Group No.4(Industry)  
 TEL:81-3-5809-8795  
 e-mail: satoshi\_sakuraba@niyac.co.jp

# Operations Control Platform

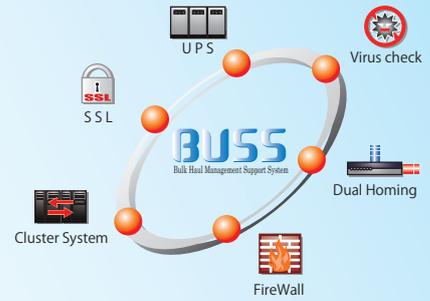

Bulk Haul Management Support System

BUSS is a comprehensive suite of logistics control applications, jointly developed with IBM, that allows Niyac to assist its customers to improve and optimise every aspect of their logistics management control processes. When internet/WEB enabled, BUSS functionalities are accessible from anywhere.

- ✔ Dedicated servers housed in a state-of-the-art data center.
- ✔ 24 X 7 security and monitoring.
- ✔ Automated data-backup system.
- ✔ On-premise, uninterrupted power supply system (UPS)

Niyac Best Practice

Niyac has developed, and constantly improves upon, a standard set of best business practices and rules (Niyac Best Practices, called "NBP") which it employs at all of its facilities throughout its nation-wide network, thus enabling Niyac to variable costs and eliminates errors in all areas of management and day-to-day operations.

Operation Center

Niyac's Operations Center is the "nerve center" by which Niyac controls all aspects of the company's logistics service operations. Moreover, this is where we manage the logistics operations which our customers have entrusted to us on an out-sourced basis, e.g., inventory management, load control, truck dispatch, and so on. This helps our customers to achieve best-of-breed service on a variable-cost basis.

Business Support

Our Business Support Center manages all "back office" functions such as accounting, payroll, billing, and payment of invoices. The Center provides these services for the company as well as for the company's customers that have entrusted their back-office functions to Niyac.

For more information, please contact the below:  
 Kazutaka Mihara / Operation Control Group  
 TEL : 81-3-5809-8769  
 e-mail : k\_mihara@niyac.co.jp

# Safety Is Our Business

## “Safety is our business”

The company's number one objective, shared alike by management and employees, is to conduct all aspects of our operation in a 100% safe manner. Safety is what Niyac Corporation Group is all about.

### Objective

#### 2 Million Kilometers Accident-Free

How did we choose the distance of 2 million kilometers?  
This is equivalent to the approximate number of kilometers a driver will cover during the course of his/her career at Niyac.

### Safety Activity Calendar

### Root Cause Analysis

**Heinrich's Method**

All incidents that compromise safety in any way are investigated until we are certain that we understand what the root causes were. Only from that point can truly effective measures be taken to ensure non-recurrence.

### Incentive Program

- Individual Awards  
Drivers that complete one year incident-free service receive an award.  
Drivers that complete 15, 25, 35 and 45 consecutive years of incident-free service are hosted on a group tour, along with their spouses, to Hawaii. or California.
- Group Awards  
Terminals that dispatch trucks for 2 million incident-free kilometer or that operate incident-free for a period of one year receive an award.  
Product Depots that operate incident-free for 10 consecutive years receive an award.

### JTA Safe Truck Terminal Certification

Most of Niyac terminals have achieved certification by the JTA (Japan Trucking Association) as "Safe Truck Terminals" based on their exceptional safety-assurance performance.

For more information, please contact the below:  
Mitsunari Yamaguchi / Safety Group  
TEL : 81-3-5809-8768  
e-mail : m\_yamaguchi@niyac.co.jp

## CSR

Niyac Corporation Group, in its entirety, is striving in every way possible to be an active contributor to our society and its well-being.

Niyac treasures the credibility and trust it has earned through the years within the business community and society at large and in order to maintain and enhance this, the company treats proper corporate governance as a subject of continuing and utmost importance. To this end the company has instituted the following:

- Internal System of Legal Compliance
- Audit Regime of the Company's Management and Operations Procedures.
- Uniform, Corporate-Wide Business Practices Rules
- Internal Whistle-Blower System

Niyac deploys field-positioned emergency response equipment and materials at all of the depots throughout the whole country, so as to be able to respond promptly to emergencies such as the incidents and troubles at any place in the country.

**Corporate Governance**

**Safety**

**Privacy Policy**

**Environment**

Niyac Group has implemented strict policies and procedures to ensure the proper handling and effective protection of personal information.

As an enterprise relying on motor transport to provide many of our services, we are taking any and all steps we can so as to minimize the environmental impact of our operations.

To this end we have implemented:

- Air Pollution Prevention
- Environment-Friendly Driving
- Enhanced Distribution Efficiency
- "Green" Procurement
